

Social Circle - City Square, Ceri Hann (Public Assembly)

Ceri uses re-purposed hard rubbish to create low-tech drawing devices to elicit physical and creative engagement with the public. Similar to an 'Etch-a-Sketch', the sanded surface at City Square is the drawing substrate.

CIRCUS, QingLan Huang

A Chinese zoetrope inspired cabinet hides an illustrated fictional world where humans rule in the game of life. Viewers turn the handles to illuminate the cabinet and rotate the images.
